

The Ashford Chair

Graceful and distinguished, the Ashford chair captures the essence of refined English elegance. Its gently winged back and softly sloped arms create a welcoming, enveloping form, offering both visual charm and exceptional comfort. Subtle piping details trace the silhouette, adding definition and a tailored finish that speaks to traditional craftsmanship.

Designed with supportive cushioning and a well-proportioned seat, Ashford provides a reassuringly comfortable sit, ideal for moments of quiet relaxation or conversation. The raised wooden legs lend a sense of lightness and heritage, grounding the design while enhancing its timeless appeal.

Ashford is a chair that feels composed yet inviting — a beautifully considered piece that brings warmth, character and understated luxury to any living space.
