

The Langley Fringed Chair

Introducing a more expressive layer to the Langley design, the Langley Fringed chair reimagines the classic slipper chair with added texture and movement, while retaining the clean, low-profile silhouette and gently angled back of the original.

Upholstered in soft velvet, Langley Fringed feels refined yet characterful, with the fringe skirt adding depth and visual softness to its form. The generously padded seat ensures a comfortable, supportive sit, while the compact proportions remain perfectly suited to bedrooms, dressing areas, or as a distinctive accent within a living space.

Balancing restraint with subtle ornamentation, Langley Fringed brings a sense of elegance and quiet drama to the home — a considered design that combines comfort, craftsmanship, and timeless appeal with a more decorative edge.
